

Maximise Your Positive Online Presence: Retainer Packages

Websites are only as good as their last update...

Impressive SEO; expensive photography and costly logo design literally counts for nothing if your audience realises that your last blog or social media post is out of date!

Your client base depends on current, relevant, useful information. No-one wishes to read, tired dated content.

I provide a news based blog service which links your online calendar, social media feeds and your website, providing clear, concise, useful articles about your business or organisation.

I take time to “learn” your business in order to create interesting, informative copy for your clients’ news feeds. I provide online calendars giving your customers clear times and dates of current events in your organisation.

For full details of my hosting and maintenance service please visit www.ljdigitalmedia.com
